

1. K-LOVE and CSN serves my family and friends by providing positive family friendly and encouraging music and commentary as well as a 24 hour call in for people in distress(k-love).
2. The effect on the local community if K-LOVE and CSN were to be displaced by an LPFM broadcaster providing other programming would be devastating. They provide a consistent format that can be heard around the country only through the use of current FM translator use.
3. I believe that the service provided by K-LOVE and CSN is in the public interest to be a consistent source of the truth of Gods love for you and me and everyone that listens. Jesus loves you. Please keep these and other stations like them available to be a consistent light in this dark world.
